

Cruciverba sulle acque piovane con le soluzioni in basso che io eliminerei per farlo più difficile.

CROSSWORD: STORMWATER

**Across:**

- 1) The area of land that drains into an estuary, lake, stream, or groundwater is known as a \_\_\_\_\_.
- 4) The \_\_\_\_\_ of speeding boats can erode shorelines.
- 5) Maintaining your \_\_\_\_\_ tank will help to prevent bacteria and nutrients from leaking into groundwater and surface waters.
- 7) Wetland plants act like a natural water \_\_\_\_\_, removing harmful pollutants from stormwater runoff.
- 8) Leave your grass clippings on your \_\_\_\_\_ to reduce the need for commercial fertilizers.
- 9) A single quart of motor \_\_\_\_\_, if disposed of improperly, can pollute 2 million gallons of water.
- 10) Fertilizers and animal wastes contain \_\_\_\_\_ that "feed" algae and other aquatic plants harmful to water quality.
- 12) Polluted runoff from both rural and \_\_\_\_\_ sources has a significant impact on water quality.
- 16) Storm \_\_\_\_\_ don't always connect to sewage treatment plants, so runoff can flow directly to rivers, lakes, and coastal waters.
- 18) Follow directions carefully when applying \_\_\_\_\_ on your lawn—more isn't always better.
- 19) Polluted runoff (also called \_\_\_\_\_ source pollution) comes from so many places that it's hard to "pinpoint" a source.
- 20) Yard and vegetable food waste are suitable additions to a \_\_\_\_\_ pile.

**Down:**

- 2) Don't dump used motor oil into storm drains. \_\_\_\_\_ it!
- 3) \_\_\_\_\_ of soil from barren land can cloud nearby streams.
- 4) \_\_\_\_\_ prevent flooding, improve water quality, and provide habitat for waterfowl, fish, and wildlife.
- 5) Marking "Do Not Dump, Drains to Bay" on a \_\_\_\_\_ is one way to educate people about polluted runoff.
- 6) Excess sediment, nutrients, toxics, and pathogens are all types of runoff \_\_\_\_\_.
- 11) Polluted \_\_\_\_\_ is the nation's #1 water quality problem.
- 13) The cattail is one wetland \_\_\_\_\_ that helps purify polluted runoff.
- 14) Too much \_\_\_\_\_ in water can harm aquatic life.
- 15) Proper crop and animal management on \_\_\_\_\_ helps to control water pollution.
- 17) \_\_\_\_\_ impact development helps control stormwater pollution through conservation approaches and techniques.

**Choices:**

- |            |           |             |
|------------|-----------|-------------|
| compost    | nonpoint  | sediment    |
| drains     | nutrients | septic      |
| erosion    | oil       | storm drain |
| farms      | plant     | urban       |
| fertilizer | pollution | wakes       |
| filter     | recycle   | watershed   |
| lawn       | runoff    | wetlands    |
| Low        |           |             |

Cruciverba sul ciclo dell'acqua con le soluzioni in basso che io eliminerei per farlo più difficile.

## The Water Cycle

### Down:

1. Body of salt water that nearly covers 3/4 of the earth's surface.
2. Water that is trapped underground.
4. Partially frozen snow.
6. A small body of running water.
7. Mass of water vapor floating in the air above the earth's surface.
8. Occurs when water vapor changes to water droplets.
9. Small, usually round pieces of ice that fall from the sky.
10. Occurs when a cloud of very small water droplets in the air form close to the earth's surface.

### Across:

3. Large bodies of water surrounded by land.
5. Moving water that empties into a lake, river, or ocean.
11. Made up of drops of water.
12. A change from liquid to vapor.
13. Any form of water that falls to the earth such as rain, hail, or snow.
14. Made up of hydrogen and oxygen.

### Word Bank

cloud	lakes	stream
condensation	ocean	water
evaporation	precipitation	
fog	rain	
ground water	rivers	
hail	sleet
